

LEAK-PROOF & WEATHER-TIGHT WALL BOXES

All Reversomatic wall boxes are made from corrosion resistance satin coat steel. The leak proof wall boxes are unpainted where the weather-tight wall boxes are epoxy painted - single coat to the interior & double coat to the exterior. The weather-tight wall boxes are tested and approved to ASTM E331-00 (Static Test) and ASTM E547-00 (Cyclic Static Test) standards.

STANDARD WALL BOX

The housing is constructed of heavy GA. galvanized satin coated metal. The WB30, WB40, WB50, WB60, WB70, WB80 models incorporate a closed cell neoprene damper, where as the WB124, WB185, WB246 are built of a light weight aluminum damper with gasketing at the bottom edge to eliminate clattering. All WB Wall Boxes come with standard aluminum stamped louvre grille or mill finish extruded aluminum louvre grille which can be painted to the colour of your choice at a modest cost.
